Cooperative Learning: Quiz-Quiz-Trade

Quiz-Quiz Trade is a very popular cooperative learning strategy used throughout the school. In this strategy students quiz a partner, get quizzed by a partner and then trade cards to repeat the process with a new partner. This is Room 7 engaged in a Math activity using Quiz-Quiz Trade when working on addition sums. Part of the process is for the students to guide their partner if they are having trouble. The students are moving around the classroom to boost their brain energy, and interacting with others, which ensures that at any one time every student is 100% involved in the learning process.
