Kindergarten Parent Meeting

By December 2014 we are aiming to teach your children automatic recognition of these words. It is done in a low pressure, supportive environment.

Learning is developmental and children progress at different rates. Some children may learn more than these and others only a few. Don’t get stressed about what your child can’t do. Focus on what they can do, keep positive and communicate regularly with their teacher.

Kindergarten Parent Meeting

Phonemic Awareness

Being able to recognise words, how many parts a word has (syllables), rhyming words / sounds, initial sounds (onset) and final sounds (rime) in small words.

Alphabet: Letter names and sounds, lower case and upper case.

Reading and Writing: being able to listen to a story, draw a picture of their favourite part then write something about their picture / the story. To us their writing might look like scribble or a string of letters, but they have meaning to your child.

Recognise the parts of a book, answer questions about something read to them.

Numeracy / Maths

Counting – 1 to 1 correspondence, oral counting as far as they can go, what number comes after ___, what number comes before ___, partitioning: can see 5 as 2 + 3;

Order of the count – when counting objects the order of the count doesn’t change the final count.

Shortest / Tallest; Heaviest / Lightest;

Identify circle, square, triangle, rectangle, oval.

Subitising – being able to recognise a number without counting, like on a die. First with regular patterns then with random patterns.
Kindergarten Parent Meeting

From Reading *First Steps*

**How to Support Early Readers (K / PP / Year 1)**

Early readers confidently read familiar texts. When meeting new texts they may read slowly and deliberately as they focus on the printed word, trying to read exactly what is on the page. Early readers express and justify their own reactions to texts they have read or listened to.

*Early readers* will benefit from a range of experiences. Consider any of the following suggestions.

- Read to your child every day. Early readers benefit from hearing ‘good’ readers. This is also an opportunity to share and discuss information presented in books.
- Encourage your child to choose books to read on a daily basis.
- Expose your child to a wide variety of books and give them encouragement to read new material, e.g. *books by a new author, a different type of text such as poetry.*
- Give encouragement and praise whenever your child chooses to read.
- Ensure your child sees other members of the family reading, and talking about their reading.
- Talk about characters, people, settings, plots and events in texts.
- Encourage your child to express their opinion about texts and to justify their reactions.
- Point out and discuss common words with your child.
- Encourage your child to try different ways to work out a word they don’t know:
  - predicting (guessing using clues)
  - skipping the word and reading on to the end of the sentence
  - re-reading the sentence.
- Encourage your child to talk about how the meaning of an unknown word was worked out or could be worked out.

**General Description of Role Play Writers (K / PP / Year 1)**

Most children work through this phase in K and PP and sometimes in year 1. In this phase, students role play the act of writing, experimenting with ways to represent written language either on paper or electronically. Role Play writers experiment by forming scribbles, letter-like symbols or random strings of letters, often using letters from their own name. While Role Play writers may ‘read’ their writing, others cannot.

**How to Support Role Play Writers**

Role Play writers will benefit from a range of experiences. Consider any of the following suggestions.

- Provide opportunities for your child to write by providing blank paper, crayons, pencils and other writing materials.
- When you write, give your child a blank copy to write on too, such as cheques, cards, forms.
- Write for your child. This allows them to see the starting point for the writing and to understand that print has a message.
- Write about shared experiences with your child.
- Ensure your child sees other members of the family writing for different purposes, and talking about their writing.
- Encourage and praise your child’s attempts at writing. Encourage them to talk about their writing and what the writing may say.
- Read to your child every day. Reading aloud helps children hear the language patterns in books, expand their vocabulary, and appreciate the value of books and other texts.
- Share simple picture books with your child and talk about the pictures and the story and relate events or characters to your child’s experiences. Encourage your child to make predictions about the stories.
- Expose children to a wide variety of texts such as magazines, brochures, comics, newspapers, electronic texts.
